

Accessibility Certificate

Issued for ESCP

Website Accessibility Compliance Certificate

The accessibility certification is granted to the website **escp.eu** based on the assessment conducted on **July 9, 2026**, confirming its compliance with the **WCAG 2.2 AA international accessibility standard**.

This confirmation is subject to the signed work order between the parties and to the site mapping as presented in the signed work order.

This certification is granted based on the website's condition as assessed at the time of issuance and is **valid only as of this date**

Any modifications to the content, design, or website code may affect its accessibility compliance, and a reassessment will be required to ensure continued adherence to the standards.

This confirmation is subject to the accessibility tests performed on the templates listed in the site mapping provided in the work order, and in accordance with its terms. The client confirms that it has been clarified that periodic accessibility testing is solely their responsibility, and undertakes to implement the necessary adjustments and clarifications across all website pages, templates, components, and content provided by the company. In the event of any conflict between this confirmation and the work order – the proposal terms shall prevail.
