

**MBA in International Management (2024/25)
VALIDATION OF PROFESSIONAL AND PERSONAL ACQUIRED
EXPERIENCE (VAPP)**

What is the process of “VAPP”?

The VAPP (Validation of Professional and Personal Acquired experience) allows you to apply for a Degree without having the required degree or academic level, by taking into account your experience.

The **MBA in International Management** delivered by ESCP Business School (registered by the French Ministry of Higher Education, Research and Innovation as a Graduate Degree in international management), has been granted the title of **French State Accredited Master's Degree (Bac+ 5 Level I)**. It is customarily accessible to students holding a 4 years University Degree (240 ECTS, equivalent in the French system to a (BAC+4) and two years of professional experience.

However, this Master's Degree is also open to students holding a 3-year university degree (180 ECTS) equivalent to a Bac+3 in the French system with at least 3 years' professional experience post diploma.

The purpose of the VAPP application is to grant recognition of your professional, personal and voluntary experience (in France or abroad) in relation to the degree you are aiming for. Your VAPP application, which will be reviewed and validated by a jury, must show that you have acquired knowledge and skills that will enable you to follow the programme you are considering.

If you hold a 3-year degree, please submit your VAPP Application before moving forward with your MBA application.

Your VAPP application will be reviewed to determine whether you are eligible and can formally apply to the MBA programme.

Please note that any incomplete VAPP application will be automatically refused.

Your VAPP application must include the following documents:

Resume

Two Recommendation letters

Grades transcript(s)

Copy of diploma

Certifications (if applicable)

And be sent to your local recruiter
