

## MSc in Energy Management (MEM)

### Sustainability & Social Impact Scholarship - Application Form & Guidance Notes

#### Who is Eligible?

The scholarship is open to all self-funding applicants for the September 2020 intake of the MSc in Energy Management programme who are passionate about sustainability-related issues, and plan to be involved with social impact projects throughout their studies and/or upon their graduation. Candidates will only be considered for this award if they have successfully completed the admissions process and are offered a place on the programme.

#### Criteria for awarding the scholarship

The scholarship will be awarded on the basis of future-plan-realisation feasibility, and professional and leadership potential, as demonstrated by the quality of the essay submitted in support of the scholarship application. We will also be looking for candidates that can demonstrate a proven track record of success (educational and professional) through their MEM programme application form and performance during the interview. The Admissions Committee will review all elements of your application to assess your potential contribution to the success of the MSc in Energy Management and commitment to ESCP Business School through ambassadorial work.

#### Amount of the award

This scholarship is worth up to £5,000.

We will be awarding various amounts between £1,000 and £5,000. Please be aware that this cannot replace the deposit required to secure a place in the programme. The scholarship award will be credited to the student's tuition fee account.

#### Judging panel

The judging panel is made up of members of the Admissions Committee and includes representatives from the ESCP Faculty and the MEM Academic Director. All candidates will be notified of the outcome within four weeks of their scholarship application submission.
