**Frédéric Jallat** is a full Professor, Academic Director of the MSc. in Biopharmaceutical Management (Paris & London), and an Associate Researcher of the *New Platform Strategies* Chair at ESCP Business School, the world's first business school (est. 1819).

ESCP is ranked #1 for its MSc. in Finance, #2 for its Executive MBA, and among the top five institutions worldwide for its Master in Management (MiM) by the Financial Times (2025).

Academic Director of the regional seminars in Southeast Asia and China, Frederic was very recently appointed by ESCP as Scientific Director of the Doctorate of Business Administration (DBA) program in the United Arab Emirates.

A member of the Harvard Business Review Advisory Council, his areas of interest and expertise cover disruptive innovation, biopharmaceutical management, geo-economics, pricing, customer relationship management (CRM), and managing high-tech/high-touch interactions within organizations.

Frédéric also teaches at Sciences Po. Paris and the Institut Pasteur.

He has published over 40 scientific articles and co-authored 15 books and chapters.

A graduate of New York University (ITP), with a PhD from ESSEC and the University of Aix-Marseille III, he also holds a Master in Law from Panthéon-Sorbonne University.

Frédéric has been a visiting professor at over 20 institutions across five continents, including Ain Shams, Dubai Health, New York University, Stanford University, Thammasat, the Chinese University of Hong Kong, the National University of Singapore, Chuo University, Bocconi, the Copenhagen Business School, Universidad de Los Andes, or the Russian Academy of Foreign Trade in collaboration with Lomonosov University.

Largely involved in the healthcare and biopharma sectors, Frédéric is Secretary General of *S3Odéon*, a not-for-profit organization which aims to bring science, healthcare and society closer together and offers a reflection on the forthcoming healthcare challenges and solutions.

He is a member of the board of the *Healthcare Data Institute (HDI)*, a thinktank devoted to accelerate the implementation of data governance among healthcare players, and contribute to transforming health data into a major competitive asset at a European level.

Frederic is also part of the scientific committee of the *Boston-Paris Biotech Summit*, fostering biotech and pharma synergies between Europe and the USA.

Frédéric co-created an online initiative with Professor Franco in charge of digital programs at the Institut Pasteur, called *Advances in Healthcare Entrepreneurship*, focused on healthcare entrepreneurship and innovation.

A passionate traveler, jazz lover, and cinema enthusiast, Frédéric has visited over 70 countries, all of which have nourished and shaped his existence.
