Spotlight on the Community

Alumni SPOTLIGHT

1. What is your favorite memory about your time at ESCP? The experience of living in new cities, learning languages, and connecting with people from my program. It pushed me to become adaptable, and now I feel at home wherever I go.

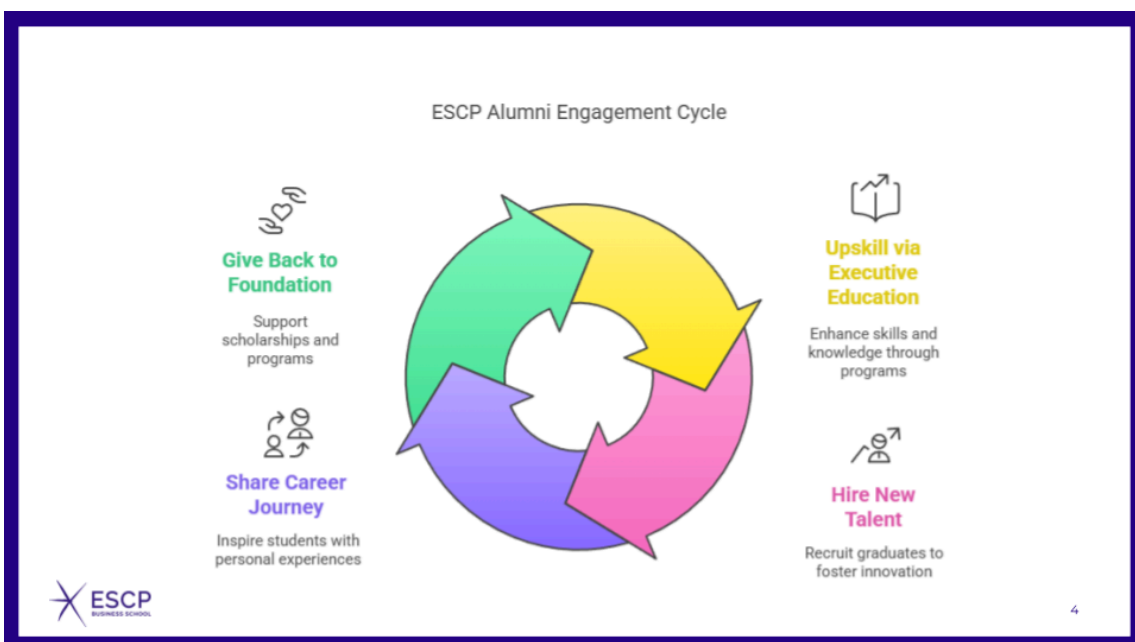

2. What is one fact/method you learned during your studies that you still apply in your business today? The way you approach university projects reflects how you'll approach your work. I use the method of planning, executing, and continuous improvement in everything I do—whether it's working in a bank, a VC fund, or a startup.

3. What are three skills/habits that you use every day in your job? Effective communication has been crucial for me throughout my career. Starting my day at 7 a.m. with a workout sets the tone for success. The ability to ask thoughtful, insightful questions has deepened my relationships with others.
